

United States Grand Prix Austin, 24 October 2015

	RAIKKONEN – chassis 311			VETTEL – chassis 313		
Third Session	P7	2:00.785	9 laps	P2	2:00.380	9 laps
Weather: air 20 °C, track 21 °C. Rain						

Kimi Raikkonen: “It’s a shame that these two days went like this. This morning at least we could do more timed laps than yesterday, but we all are here to drive and the spectators have been sitting in the rain for five hours without seeing any of the cars. It’s an unfortunate thing but we cannot change the weather, there’s nothing that we can do. Tomorrow we’ll have qualifying and race in the same day, but I don’t think it will be so difficult. We have done it before, it will just be a bit more busy day. The main thing is that hopefully the weather will be better and we get both things done, the qualifying session and the Grand Prix. Then it would be nice for everybody.”

Sebastian Vettel: “Obviously it is a shame for the people here. They have been waiting a long time in the wet, they came to see nothing in the end. Hopefully we can put in a good show for them tomorrow. The difficulty will be to manage the whole day, there will be a lot of things to do, a lot of meetings and so on, but Qualifying and race are possible to manage within one day, as we have seen a few years ago in Japan. There was very little we could do on a day like today. But we still had the chance to run a bit this morning, so for tomorrow we have a good chance to qualify well and minimize the damage of going back 10 places. It looks like tomorrow it could be wet in the morning, but then dry in the afternoon during the race.”
